App Screenshots (iOS)

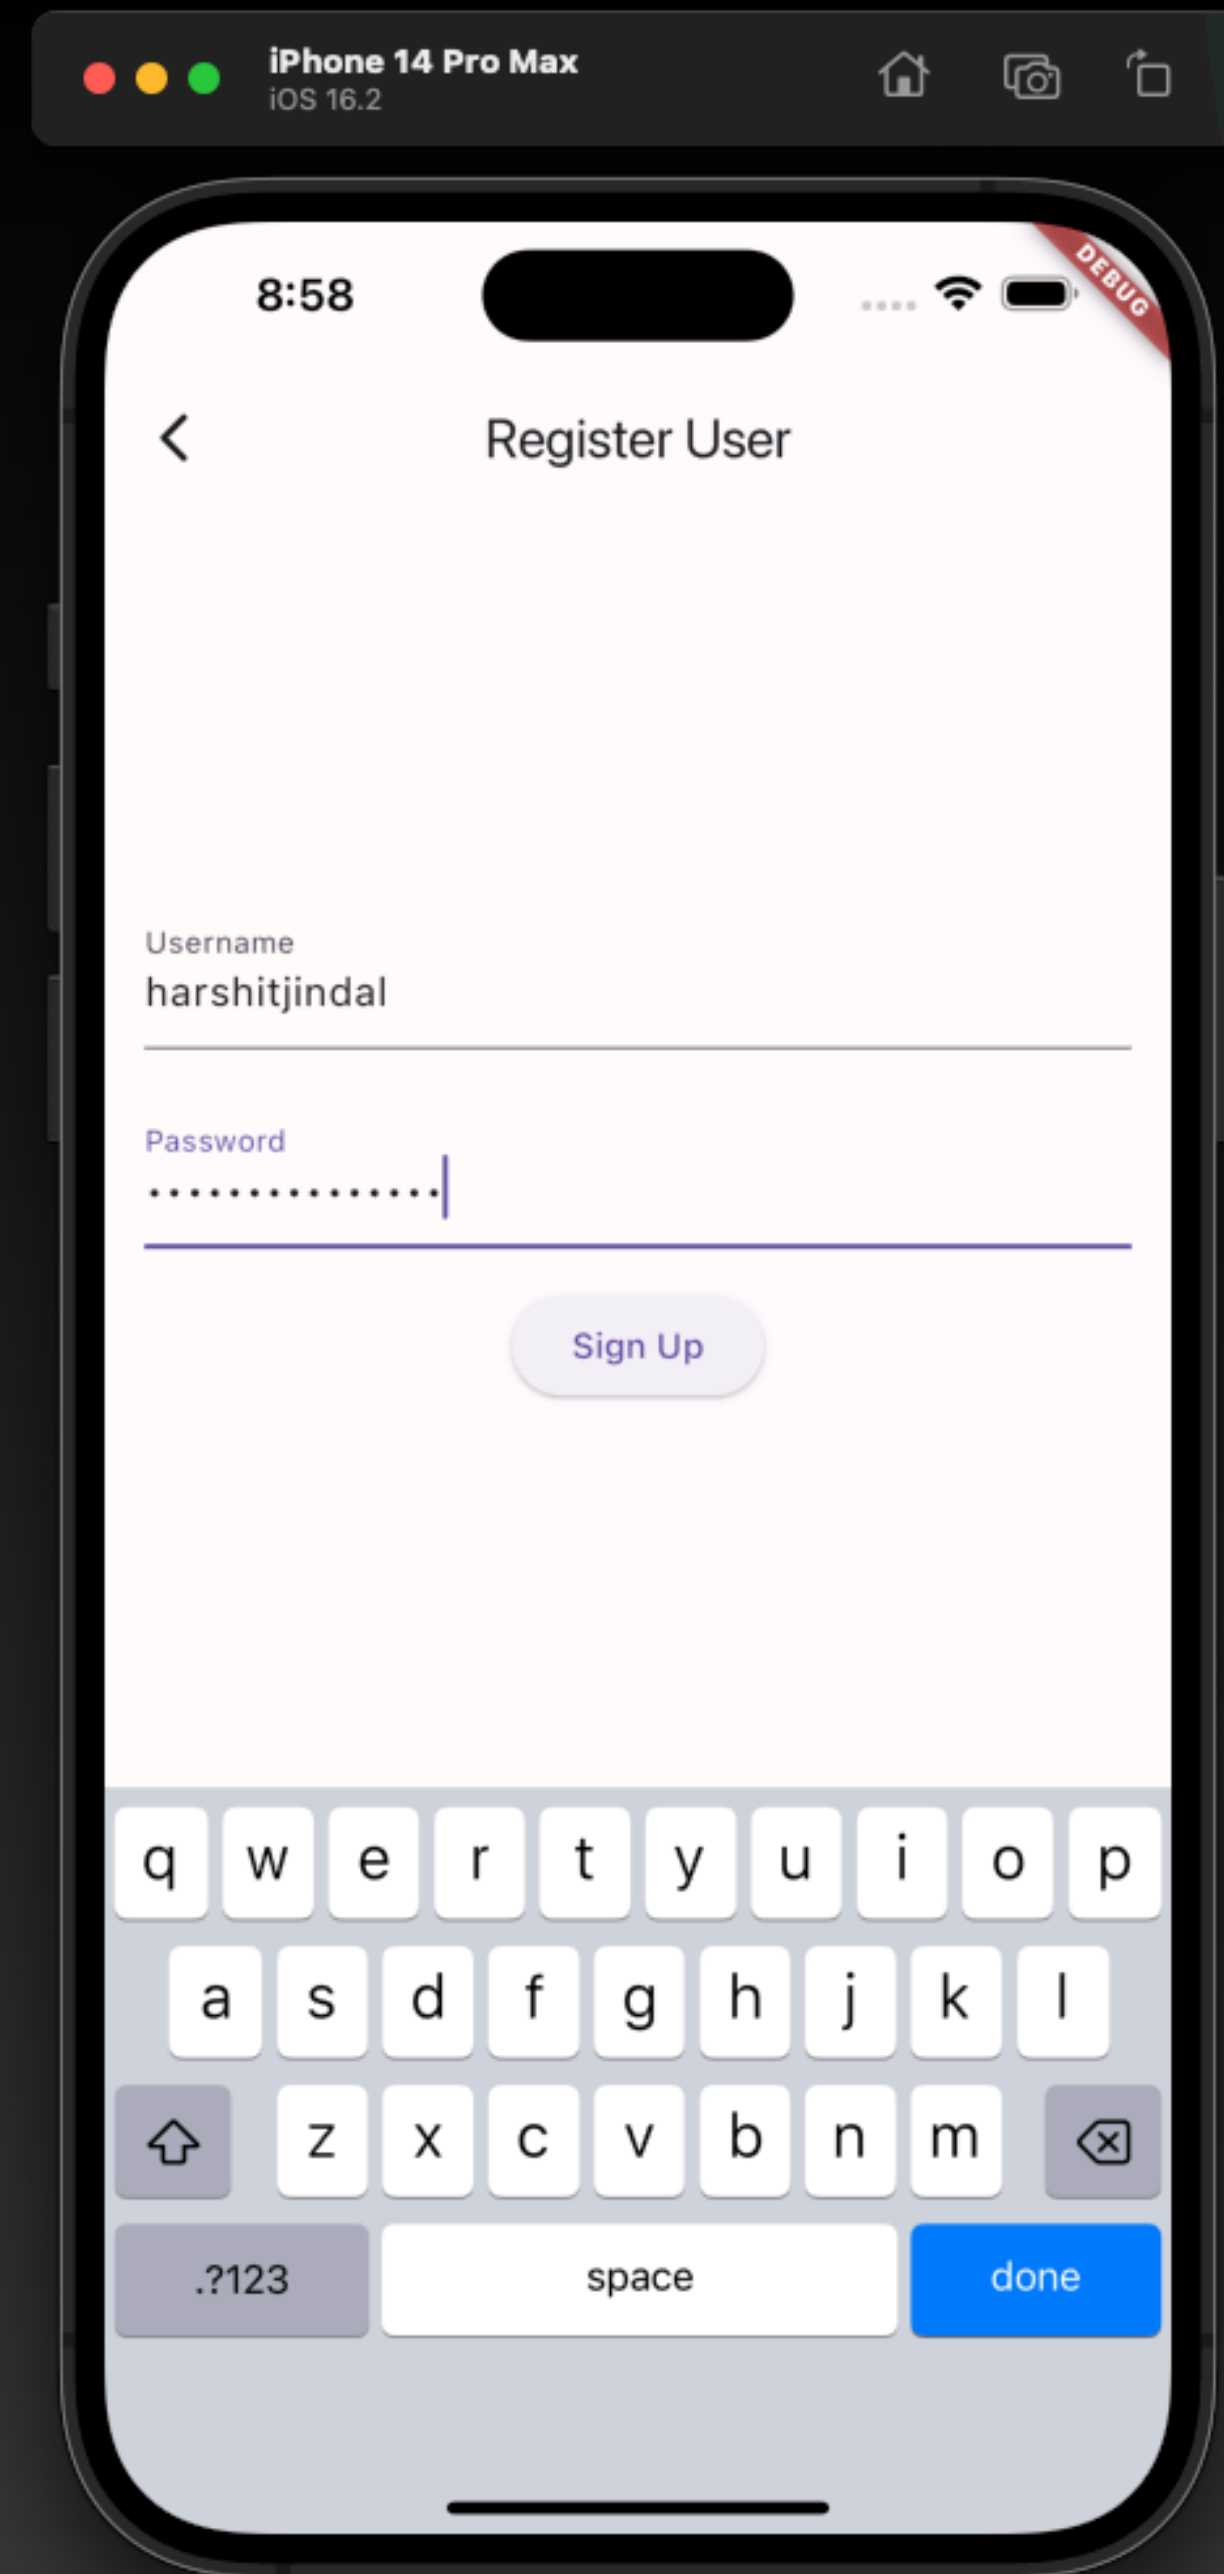

Home Page:

1. Existing User Login
2. New User Registration

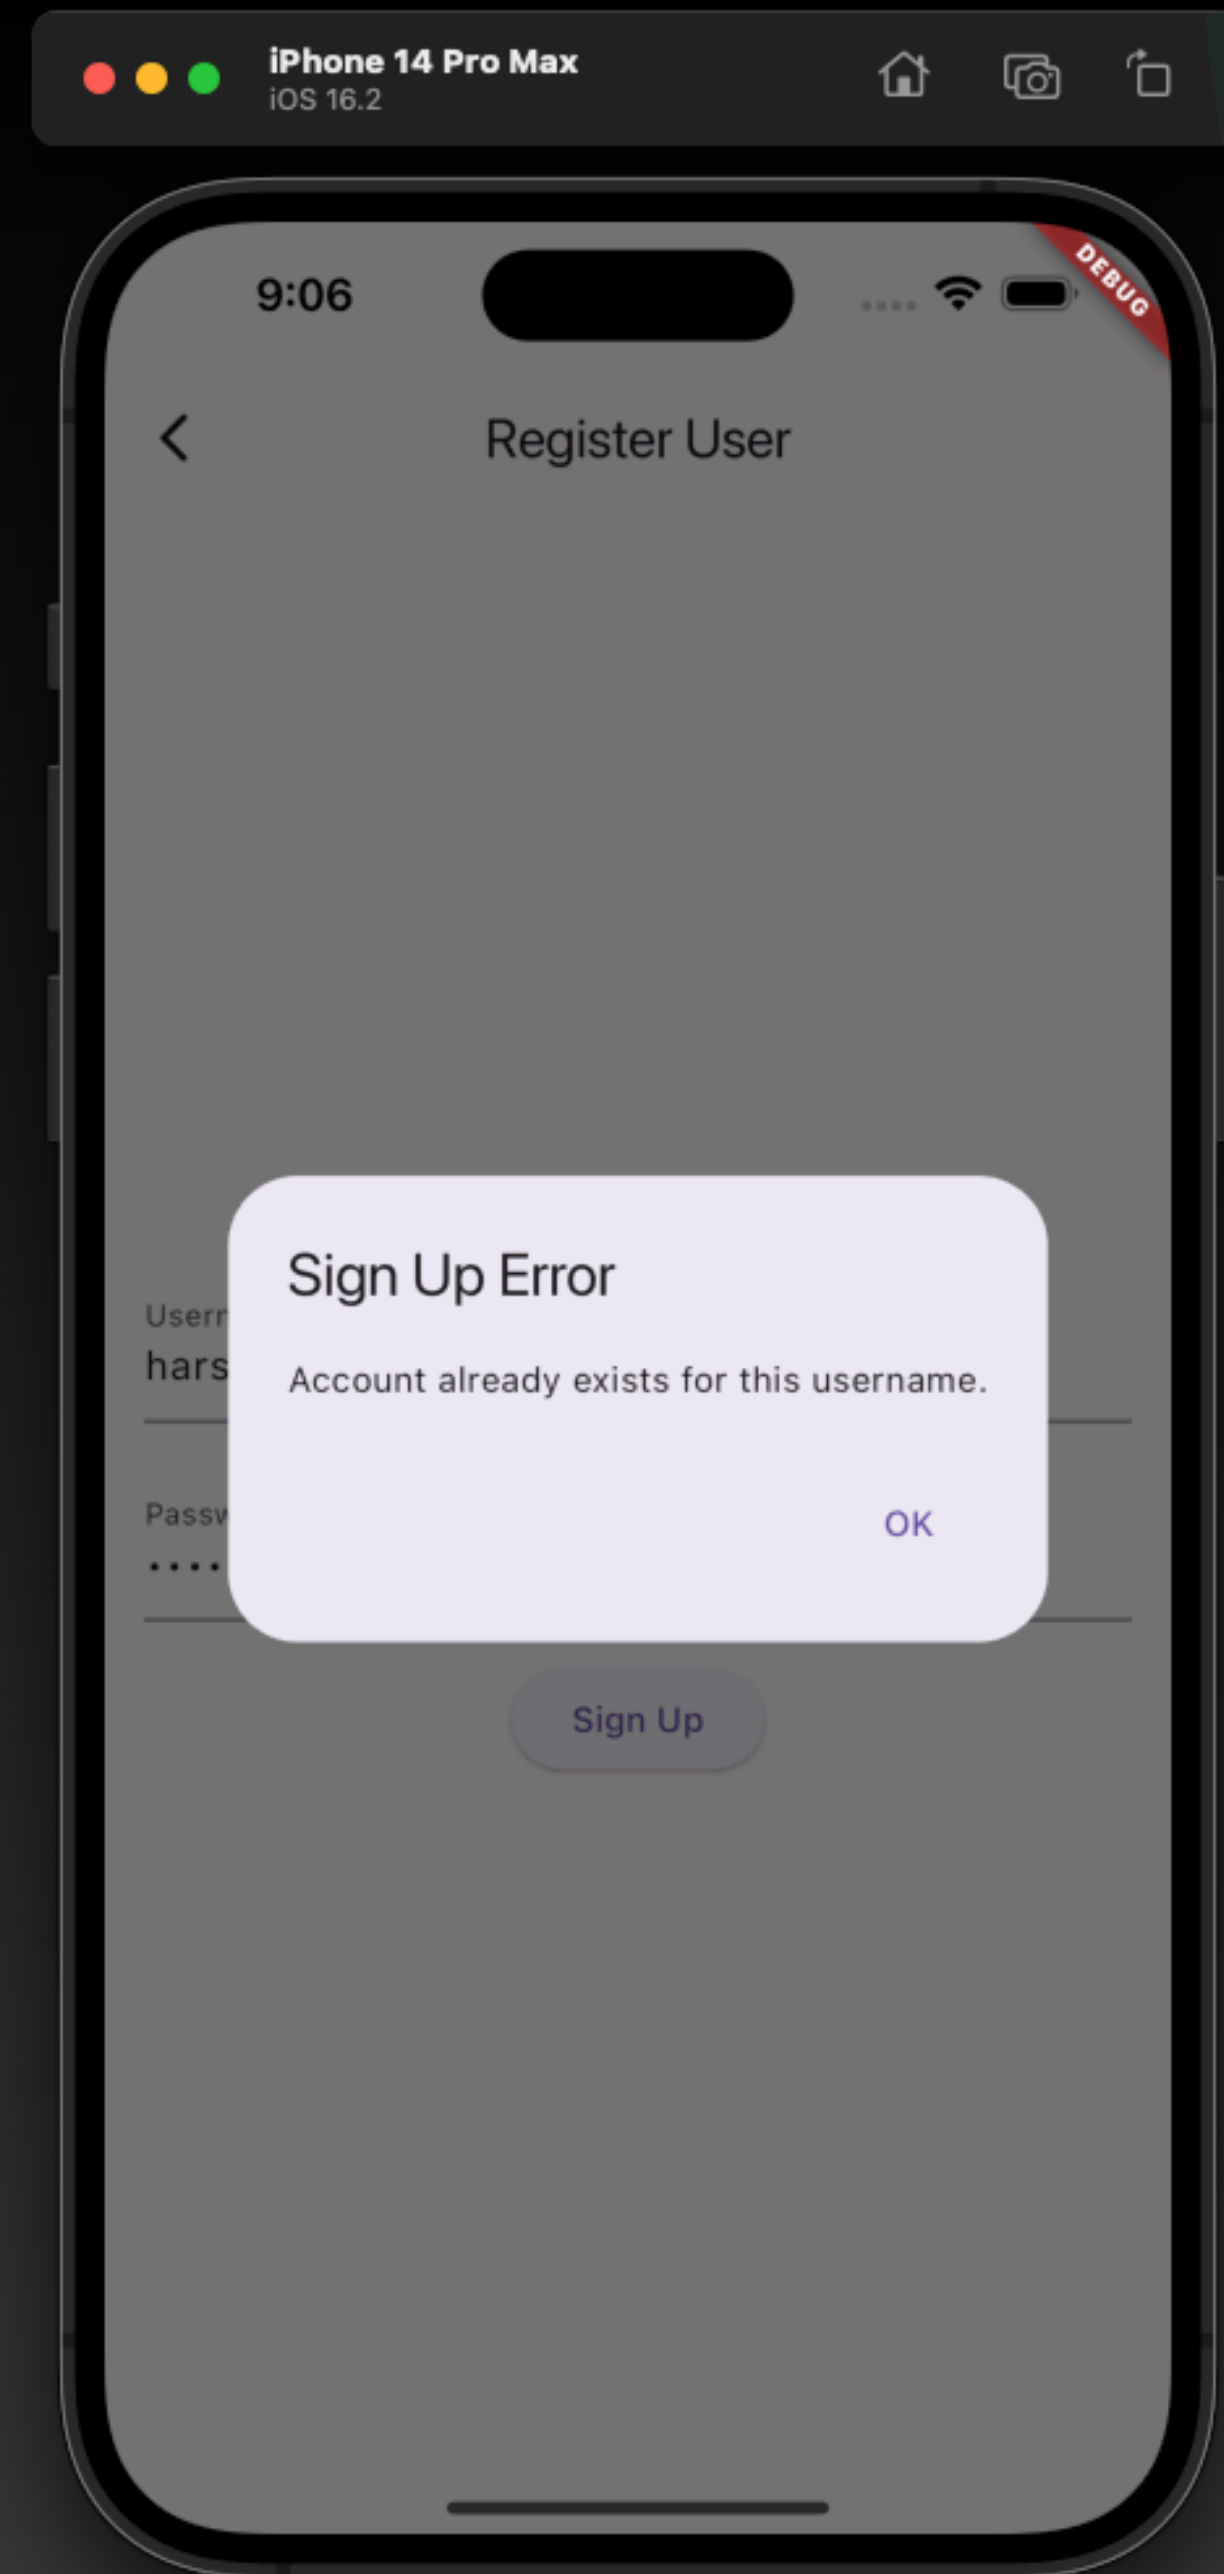

App Screenshots (iOS)

1. New User Registration Screen

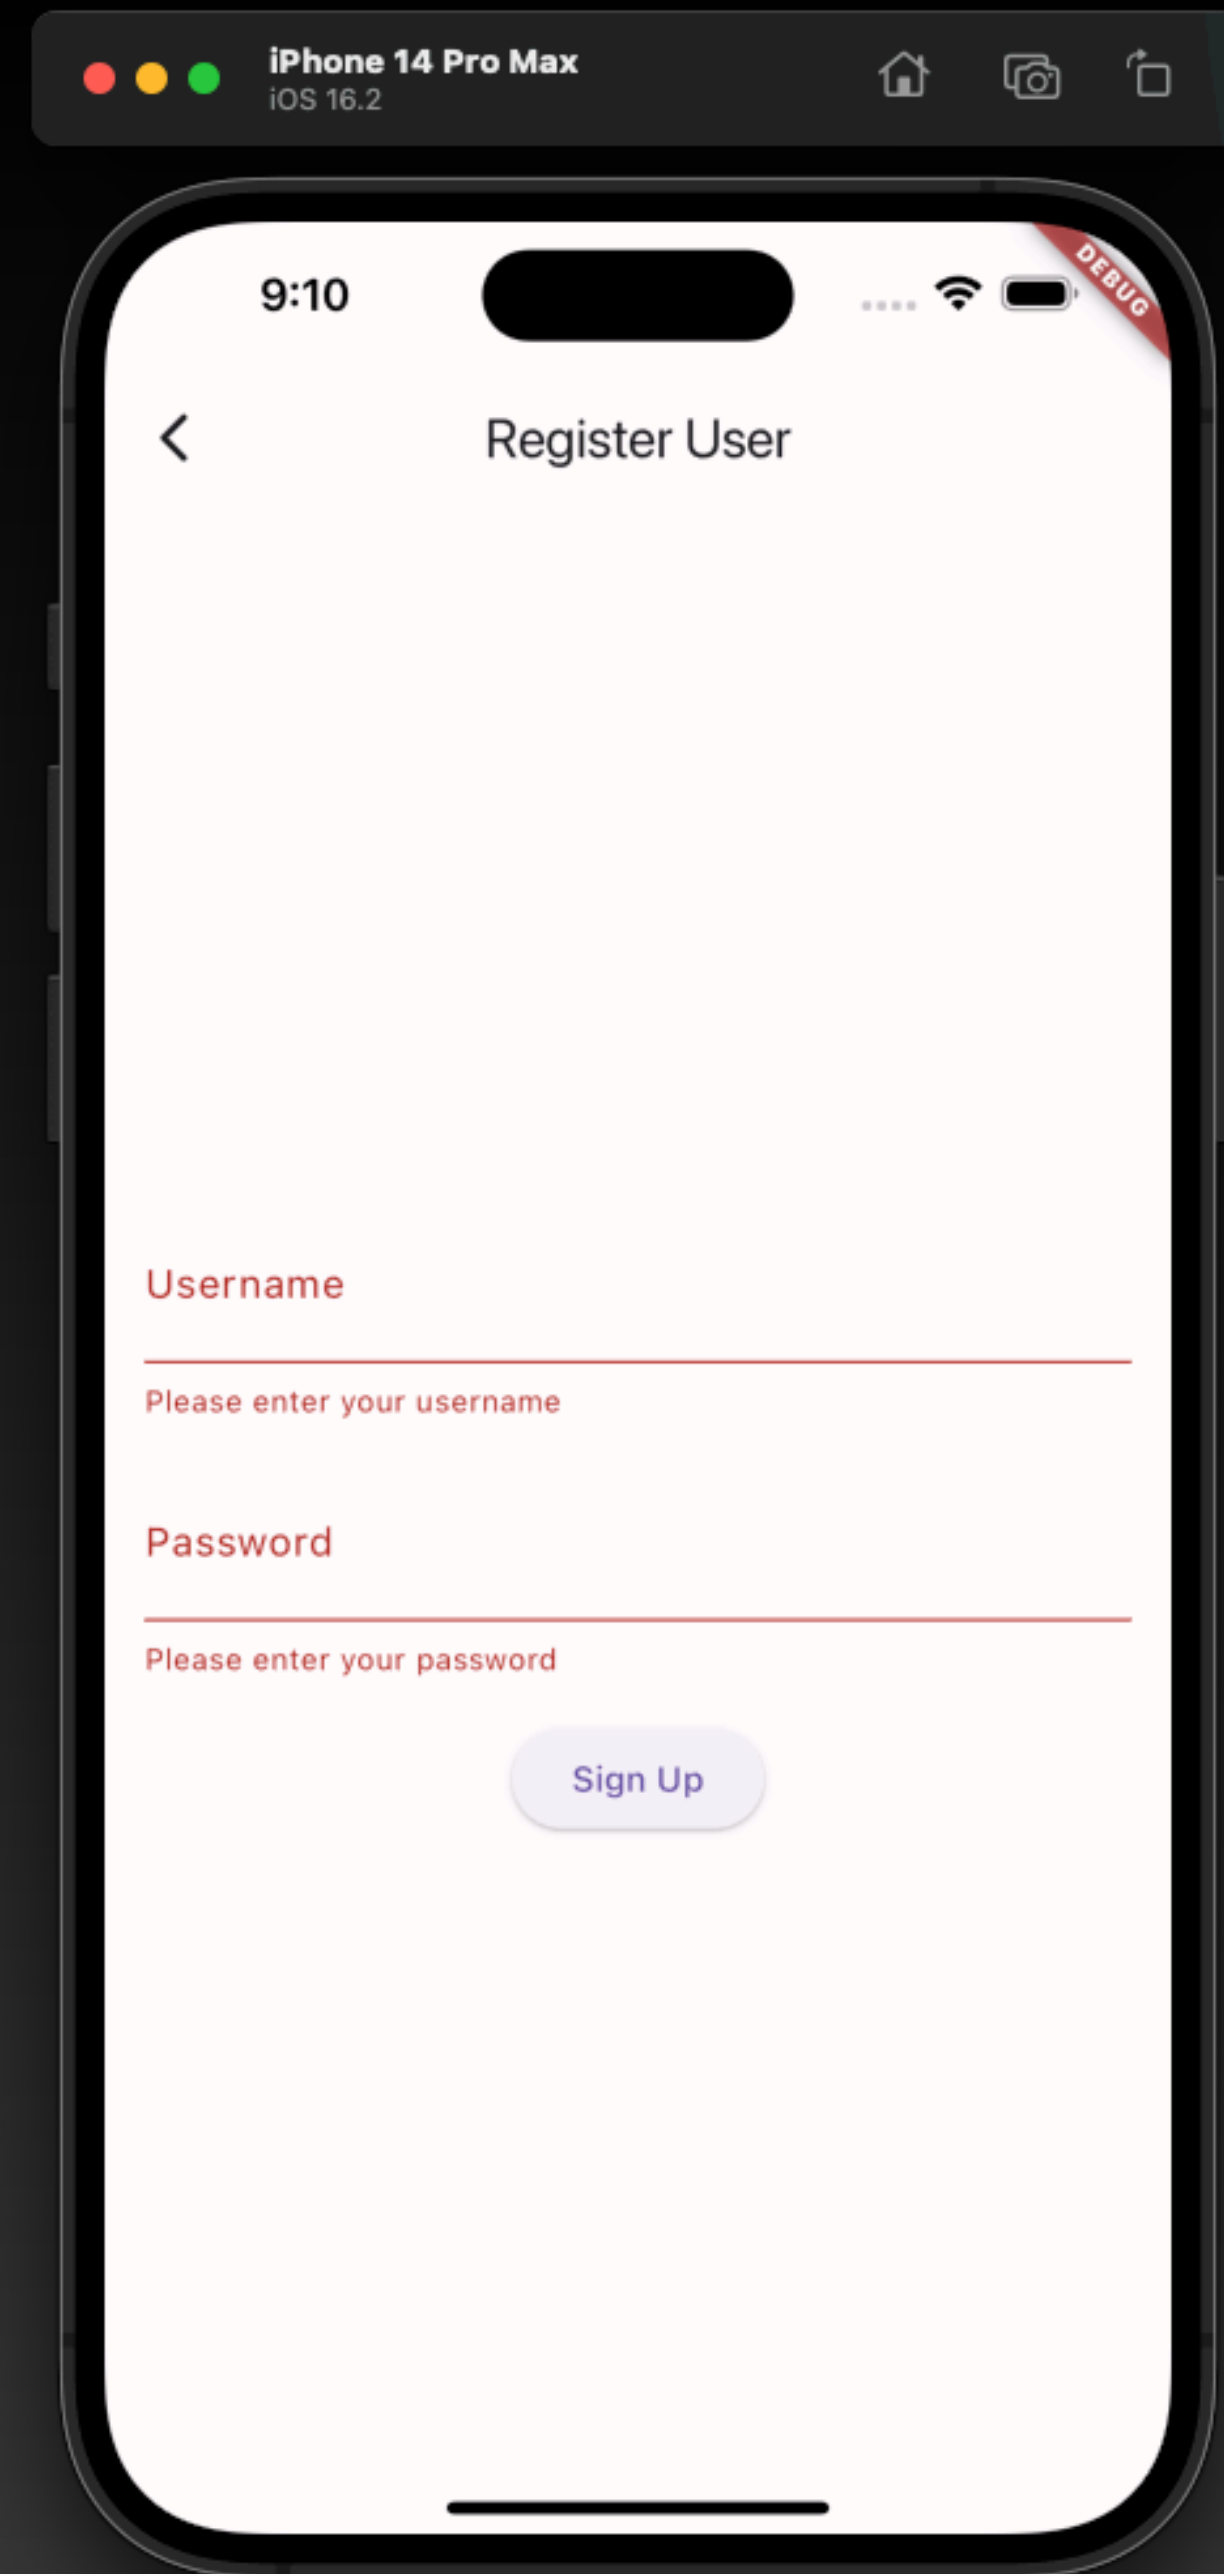

App Screenshots (iOS)

1.1 Validation to prevent duplicate user registration:
Throw error if the username already exists in records.

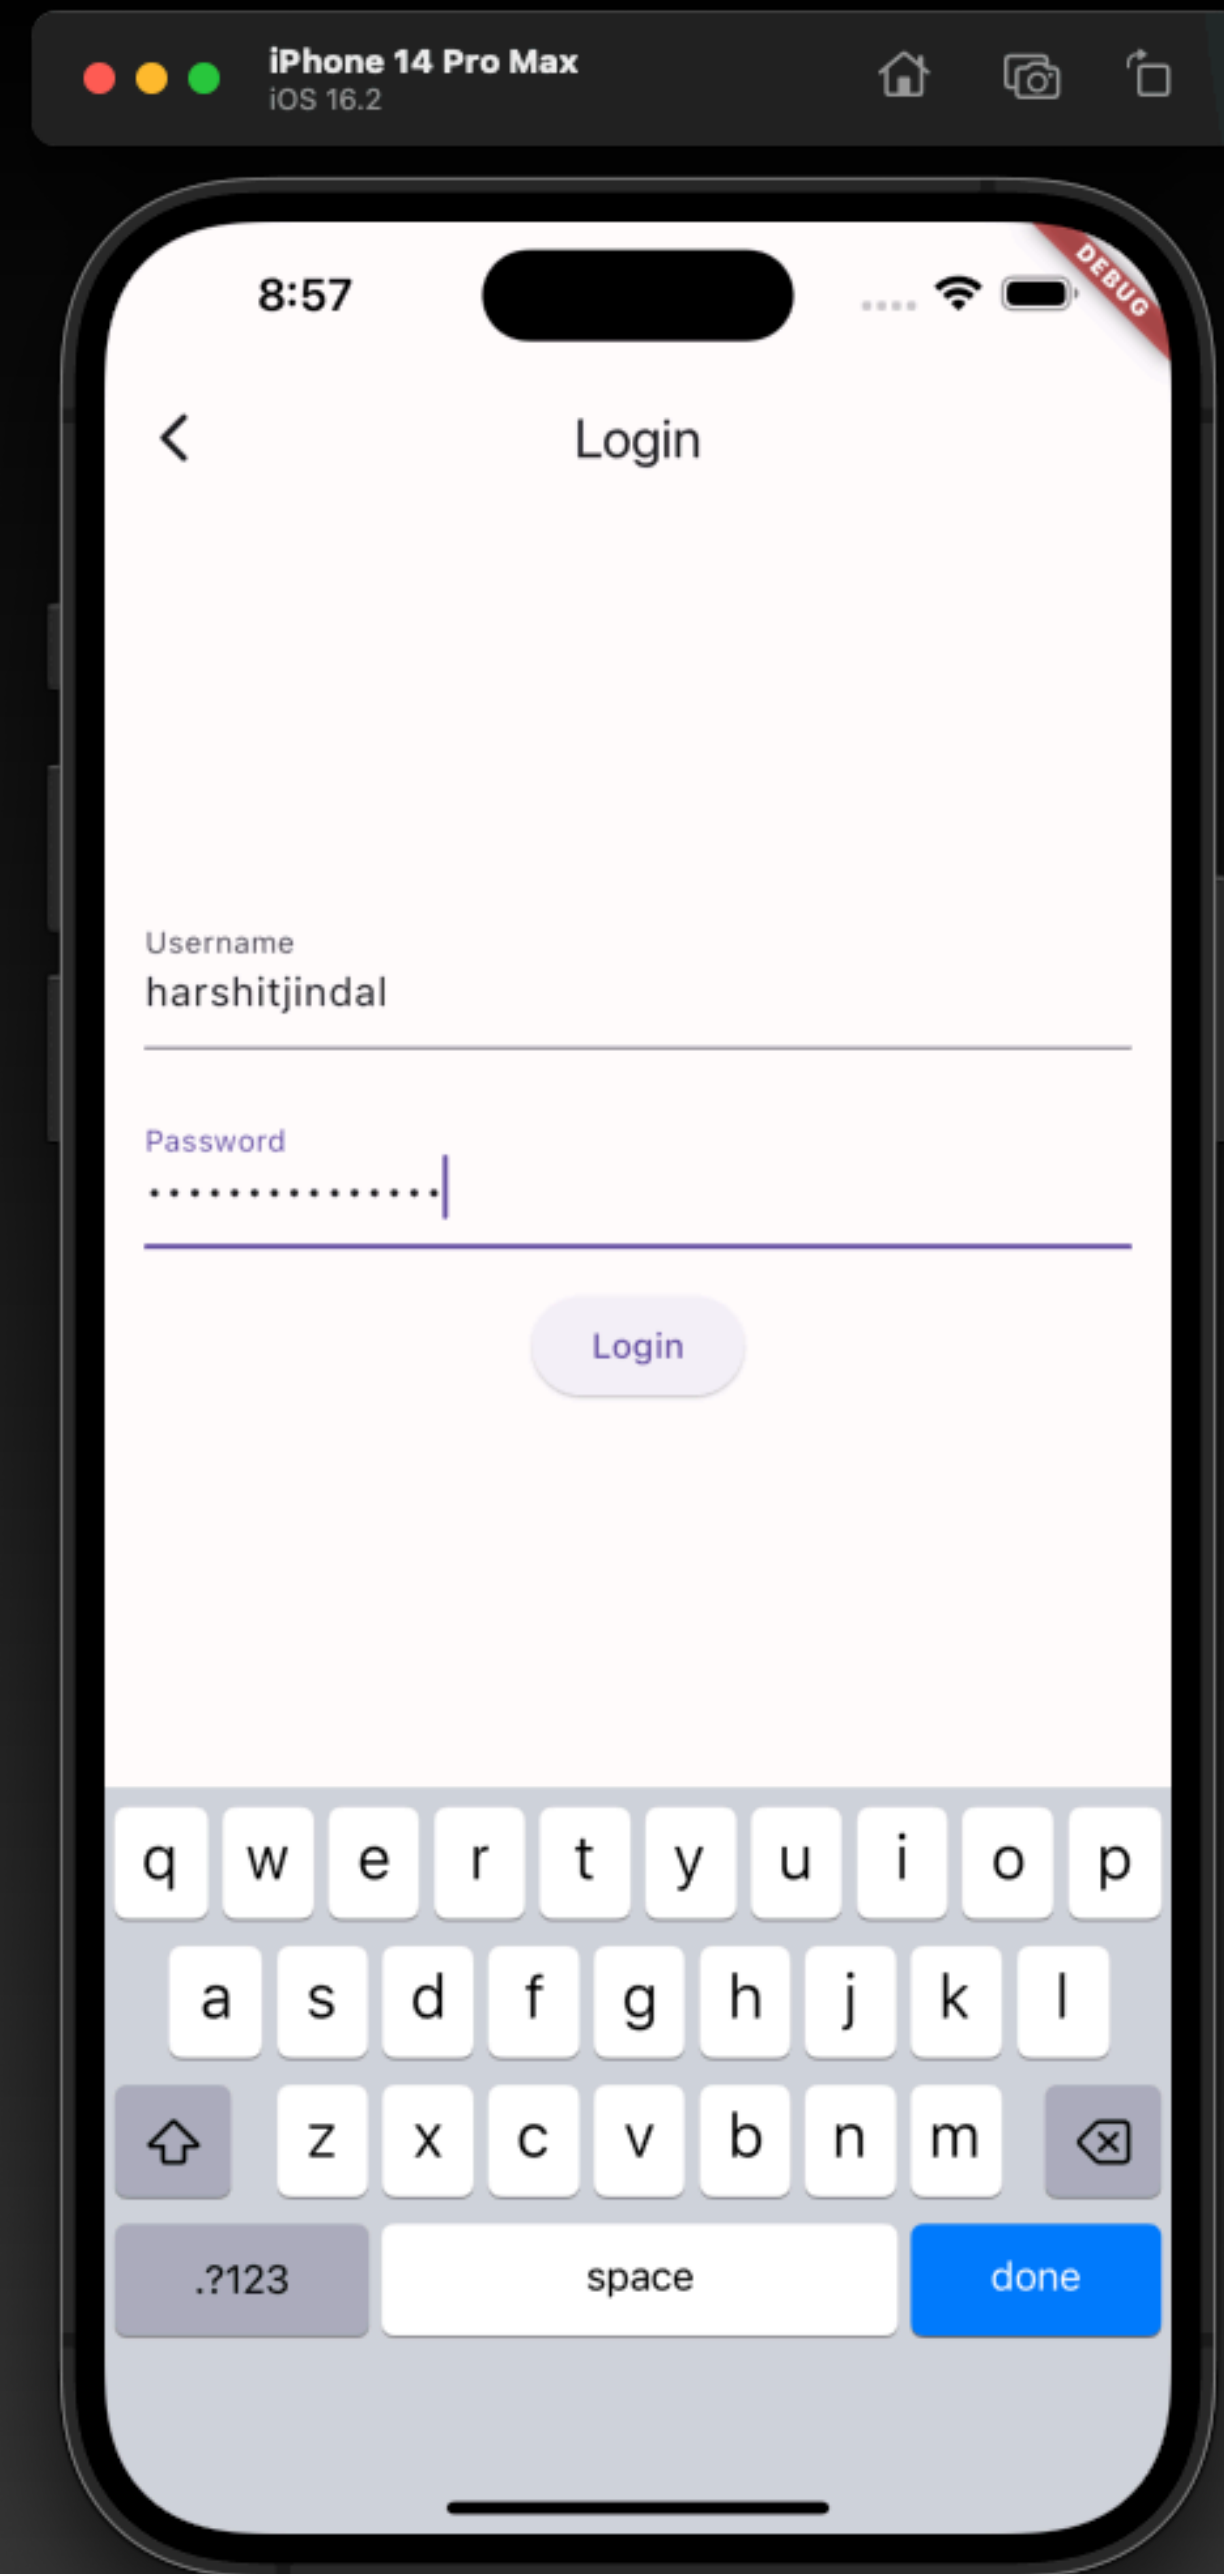

App Screenshots (iOS)

1.2 Validation to prevent
registration with blank username
or password

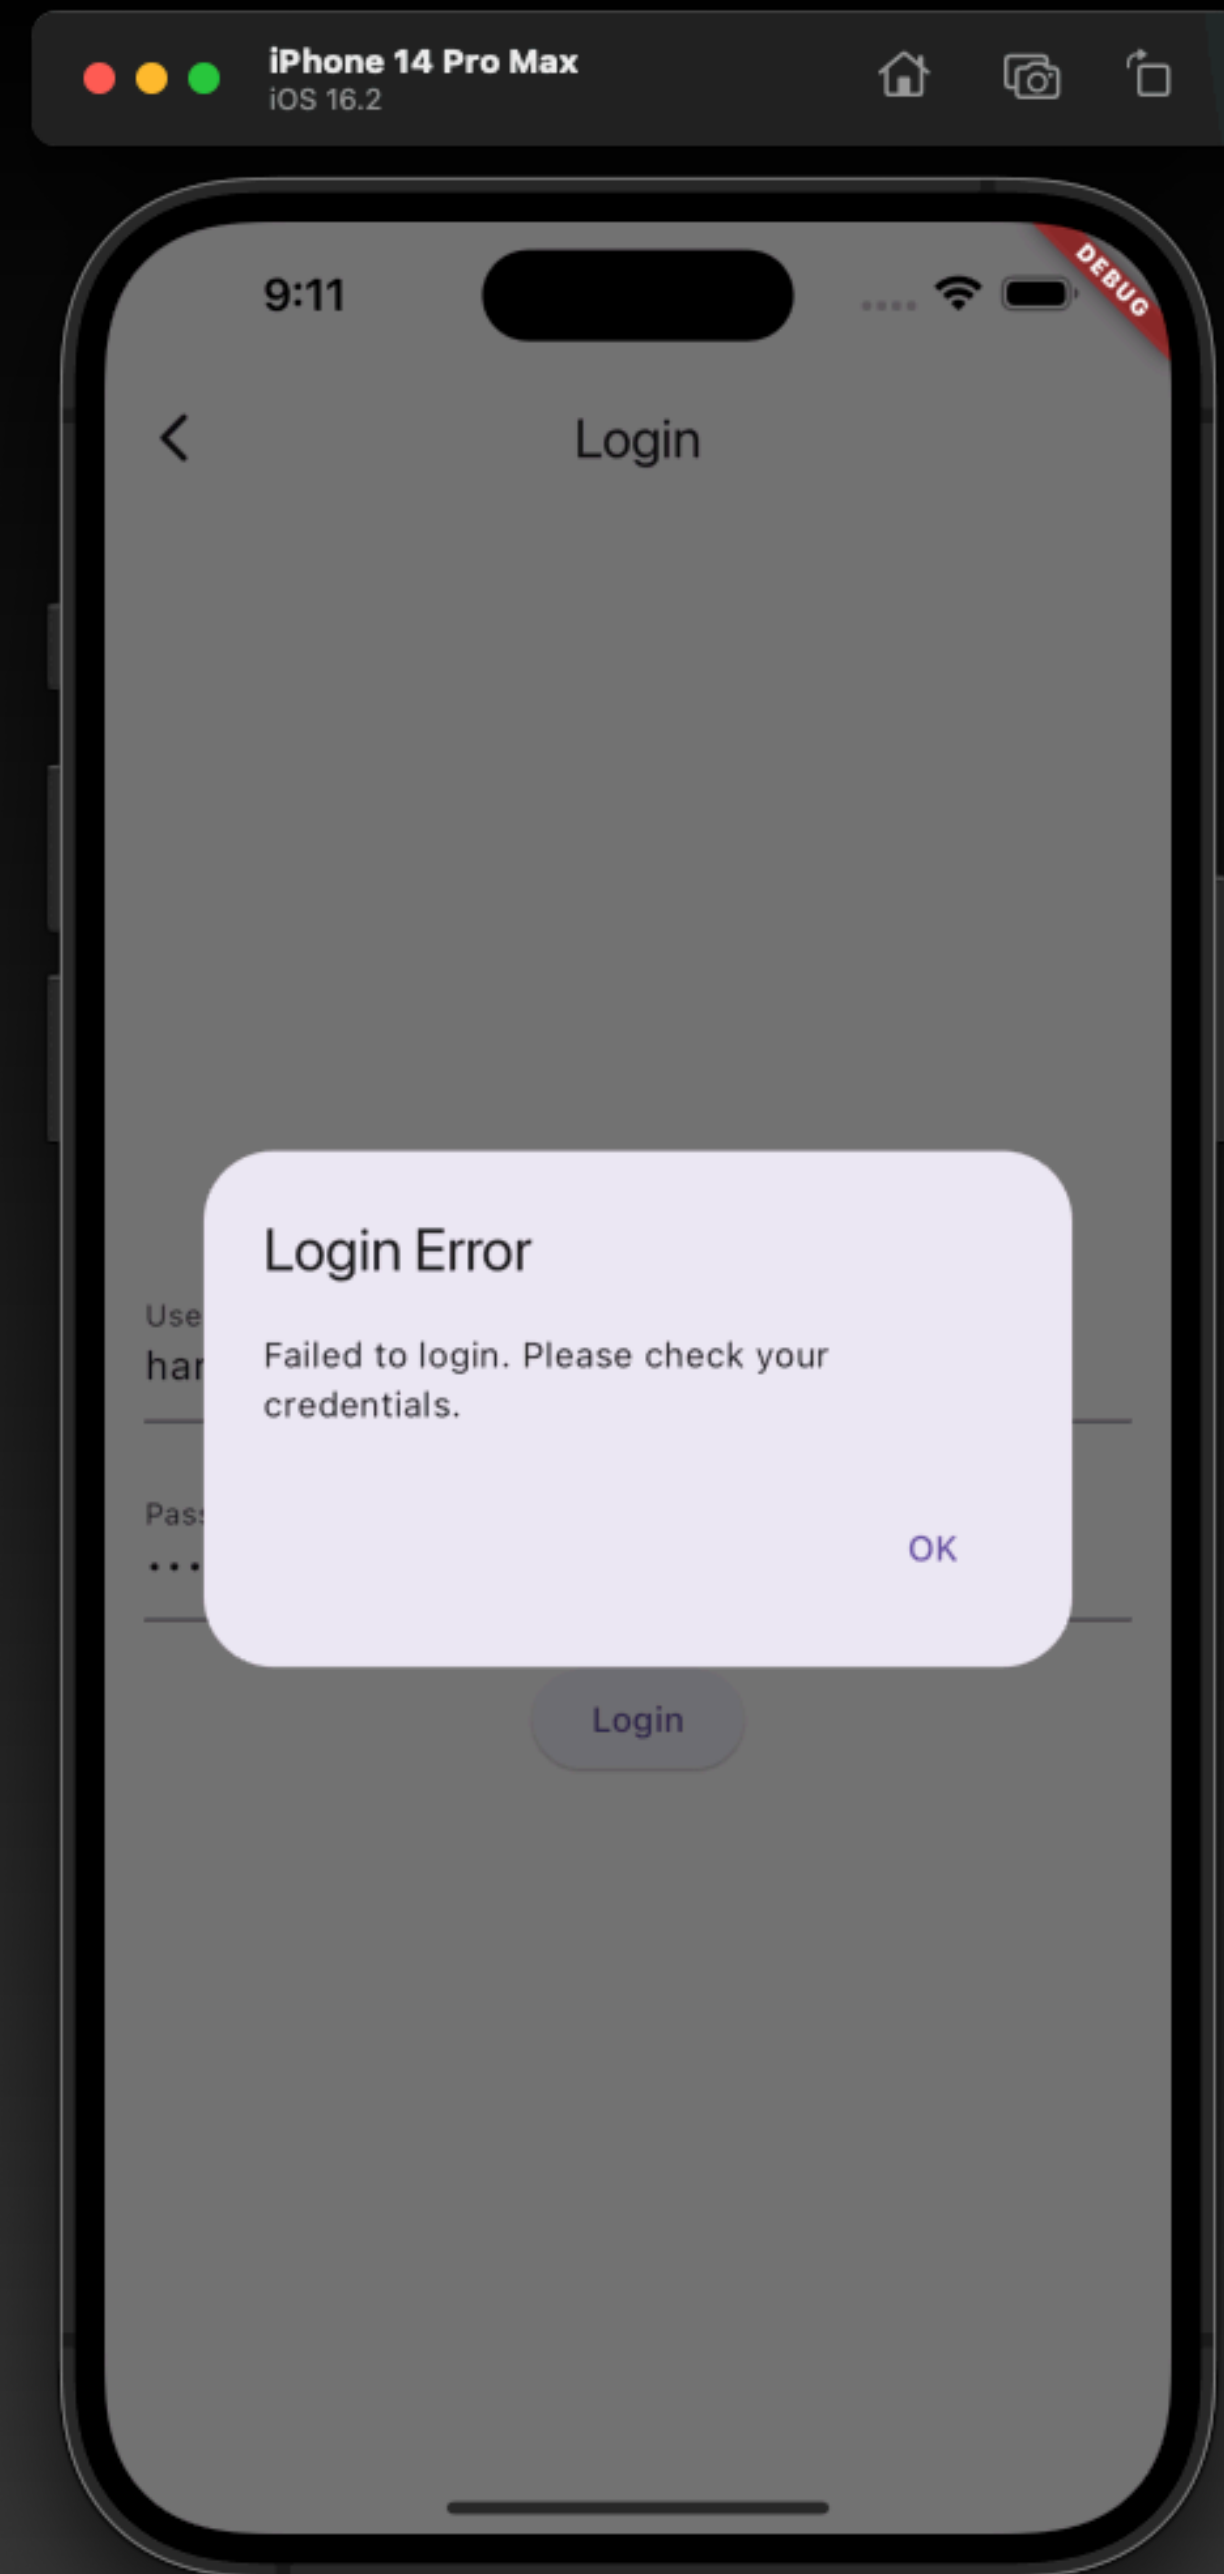

App Screenshots (iOS)

2. Existing User Login Screen

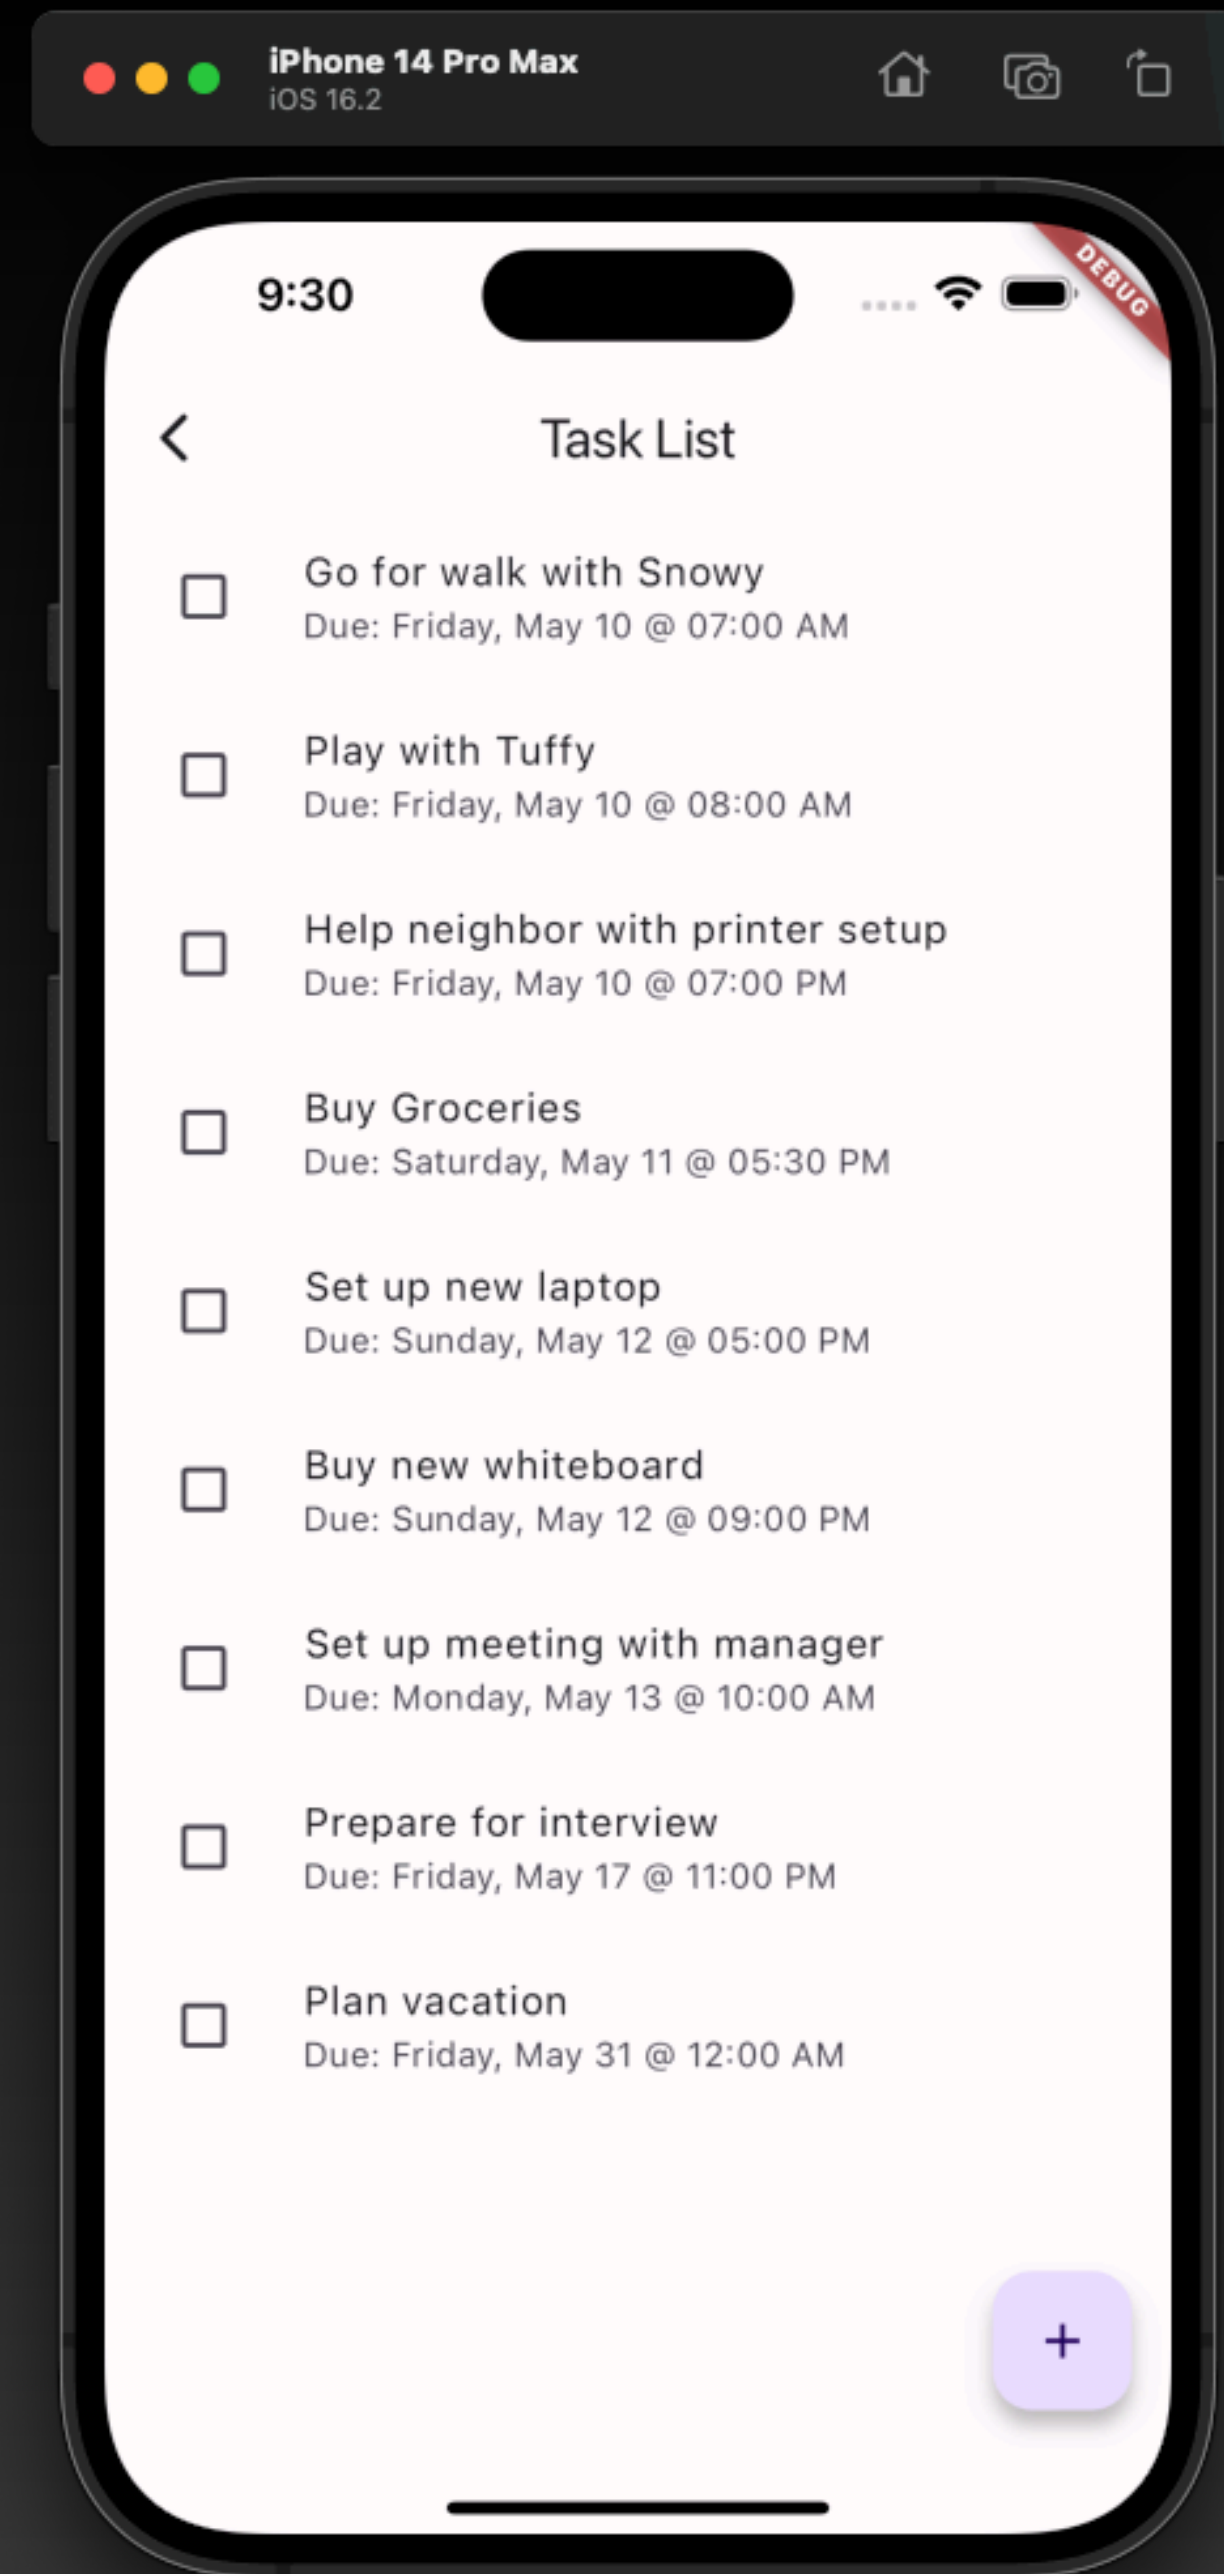

App Screenshots (iOS)

2.1 Authentication to prevent login with incorrect credentials

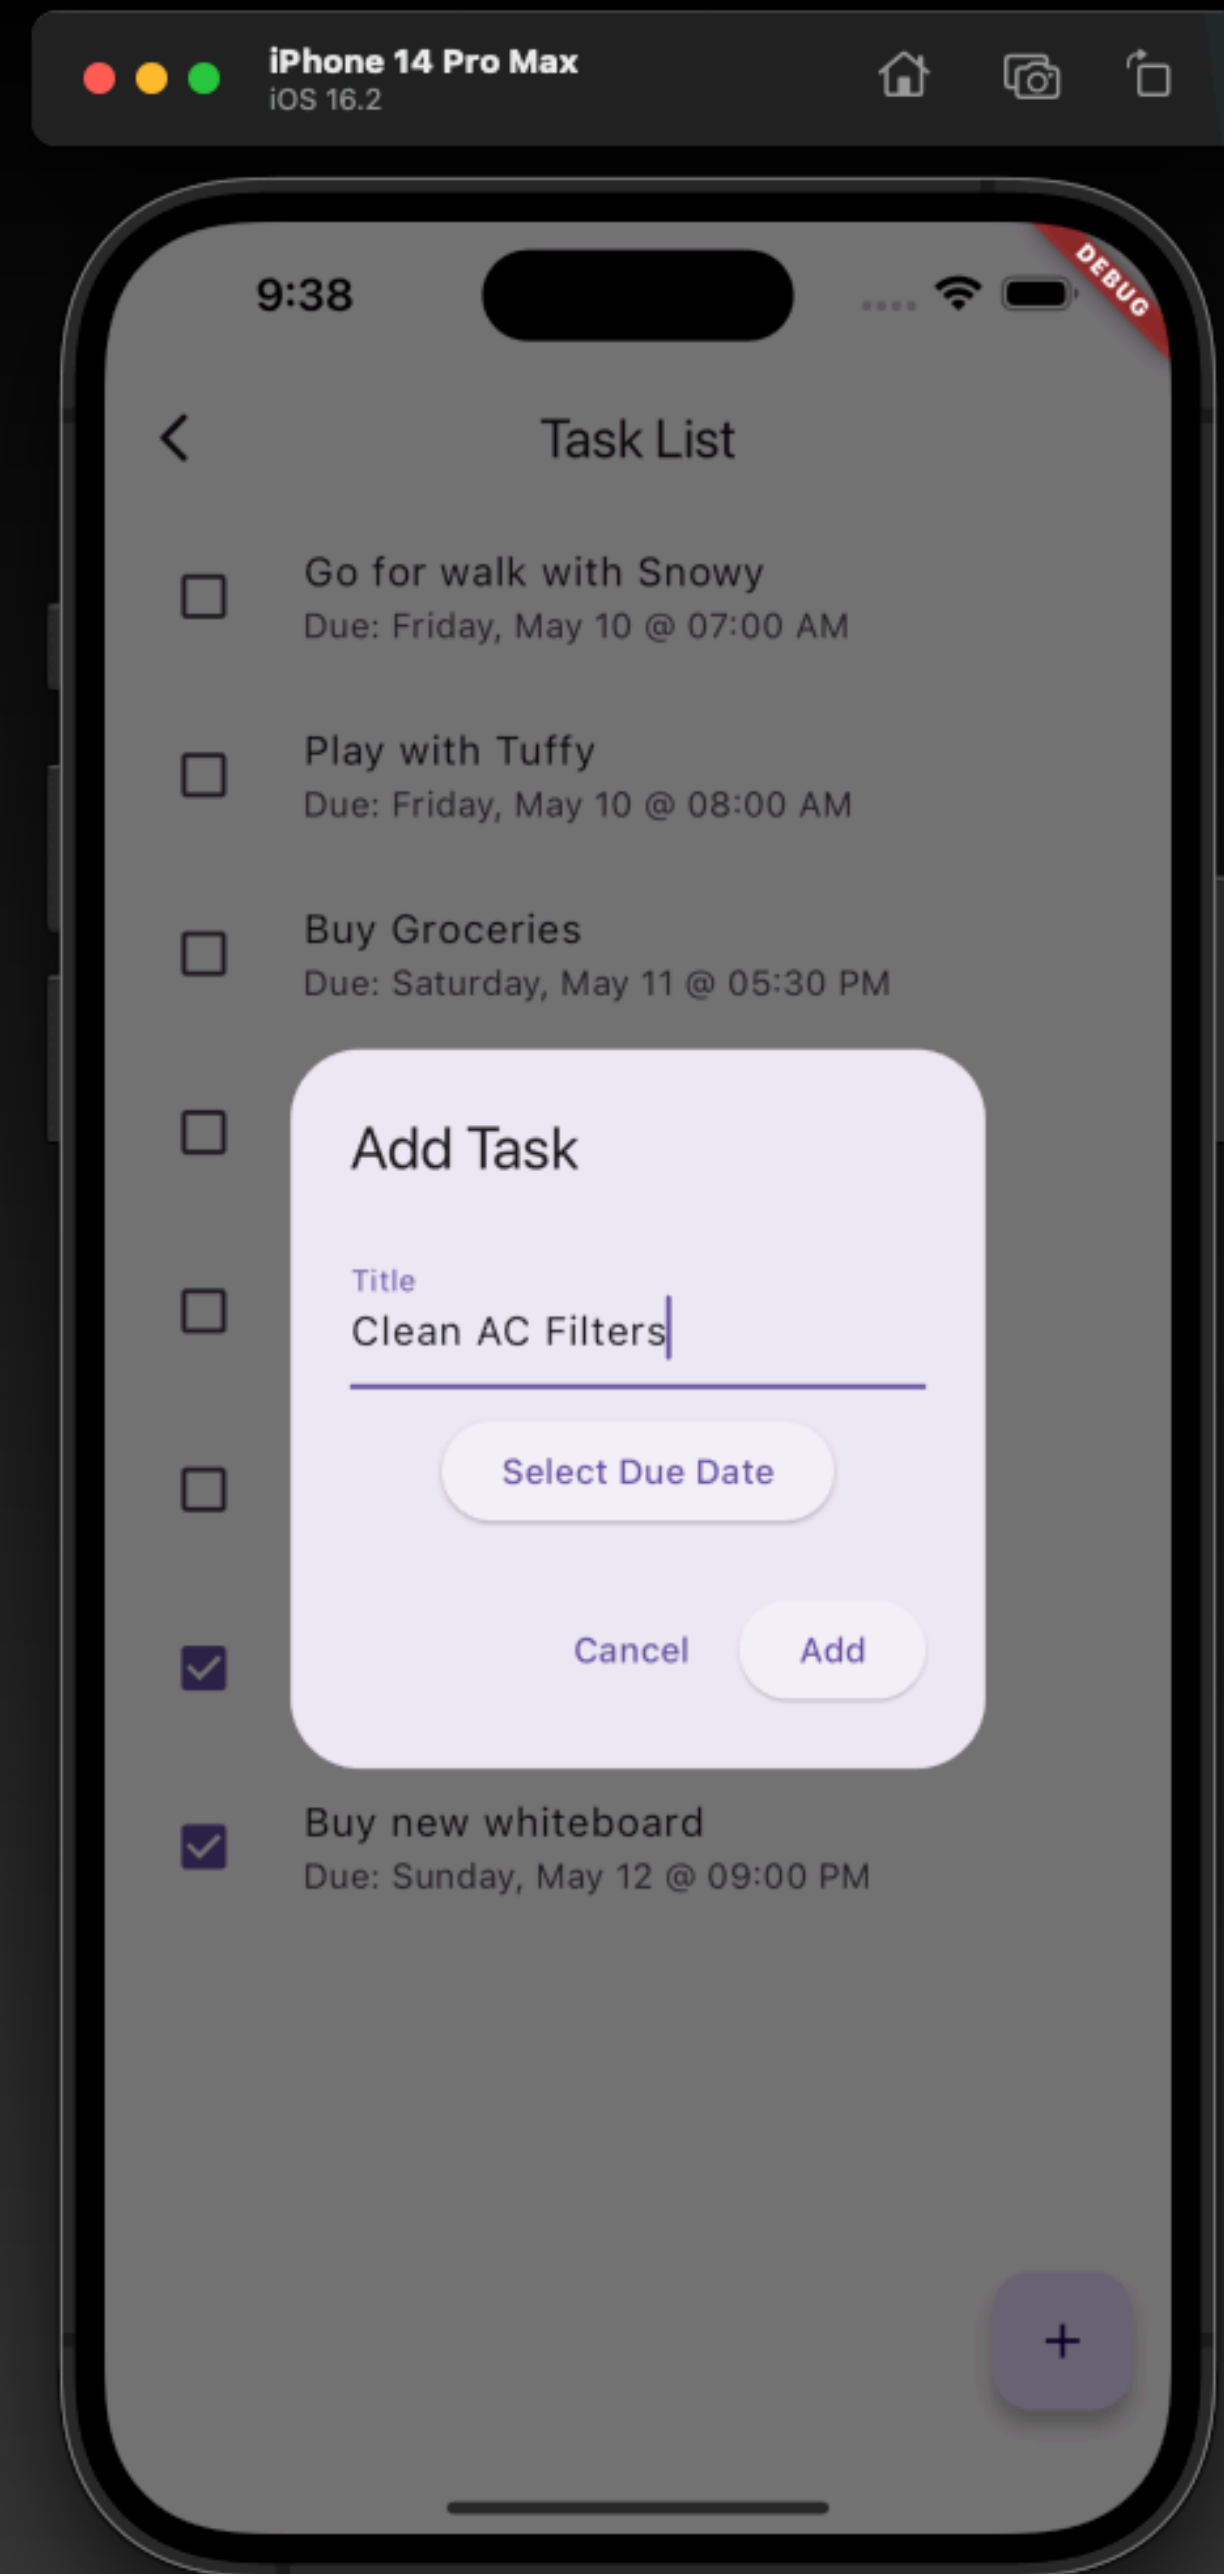

App Screenshots (iOS)

3. Tasks Screen with a
scrollable view for tasks:
Automatically sorted by due date

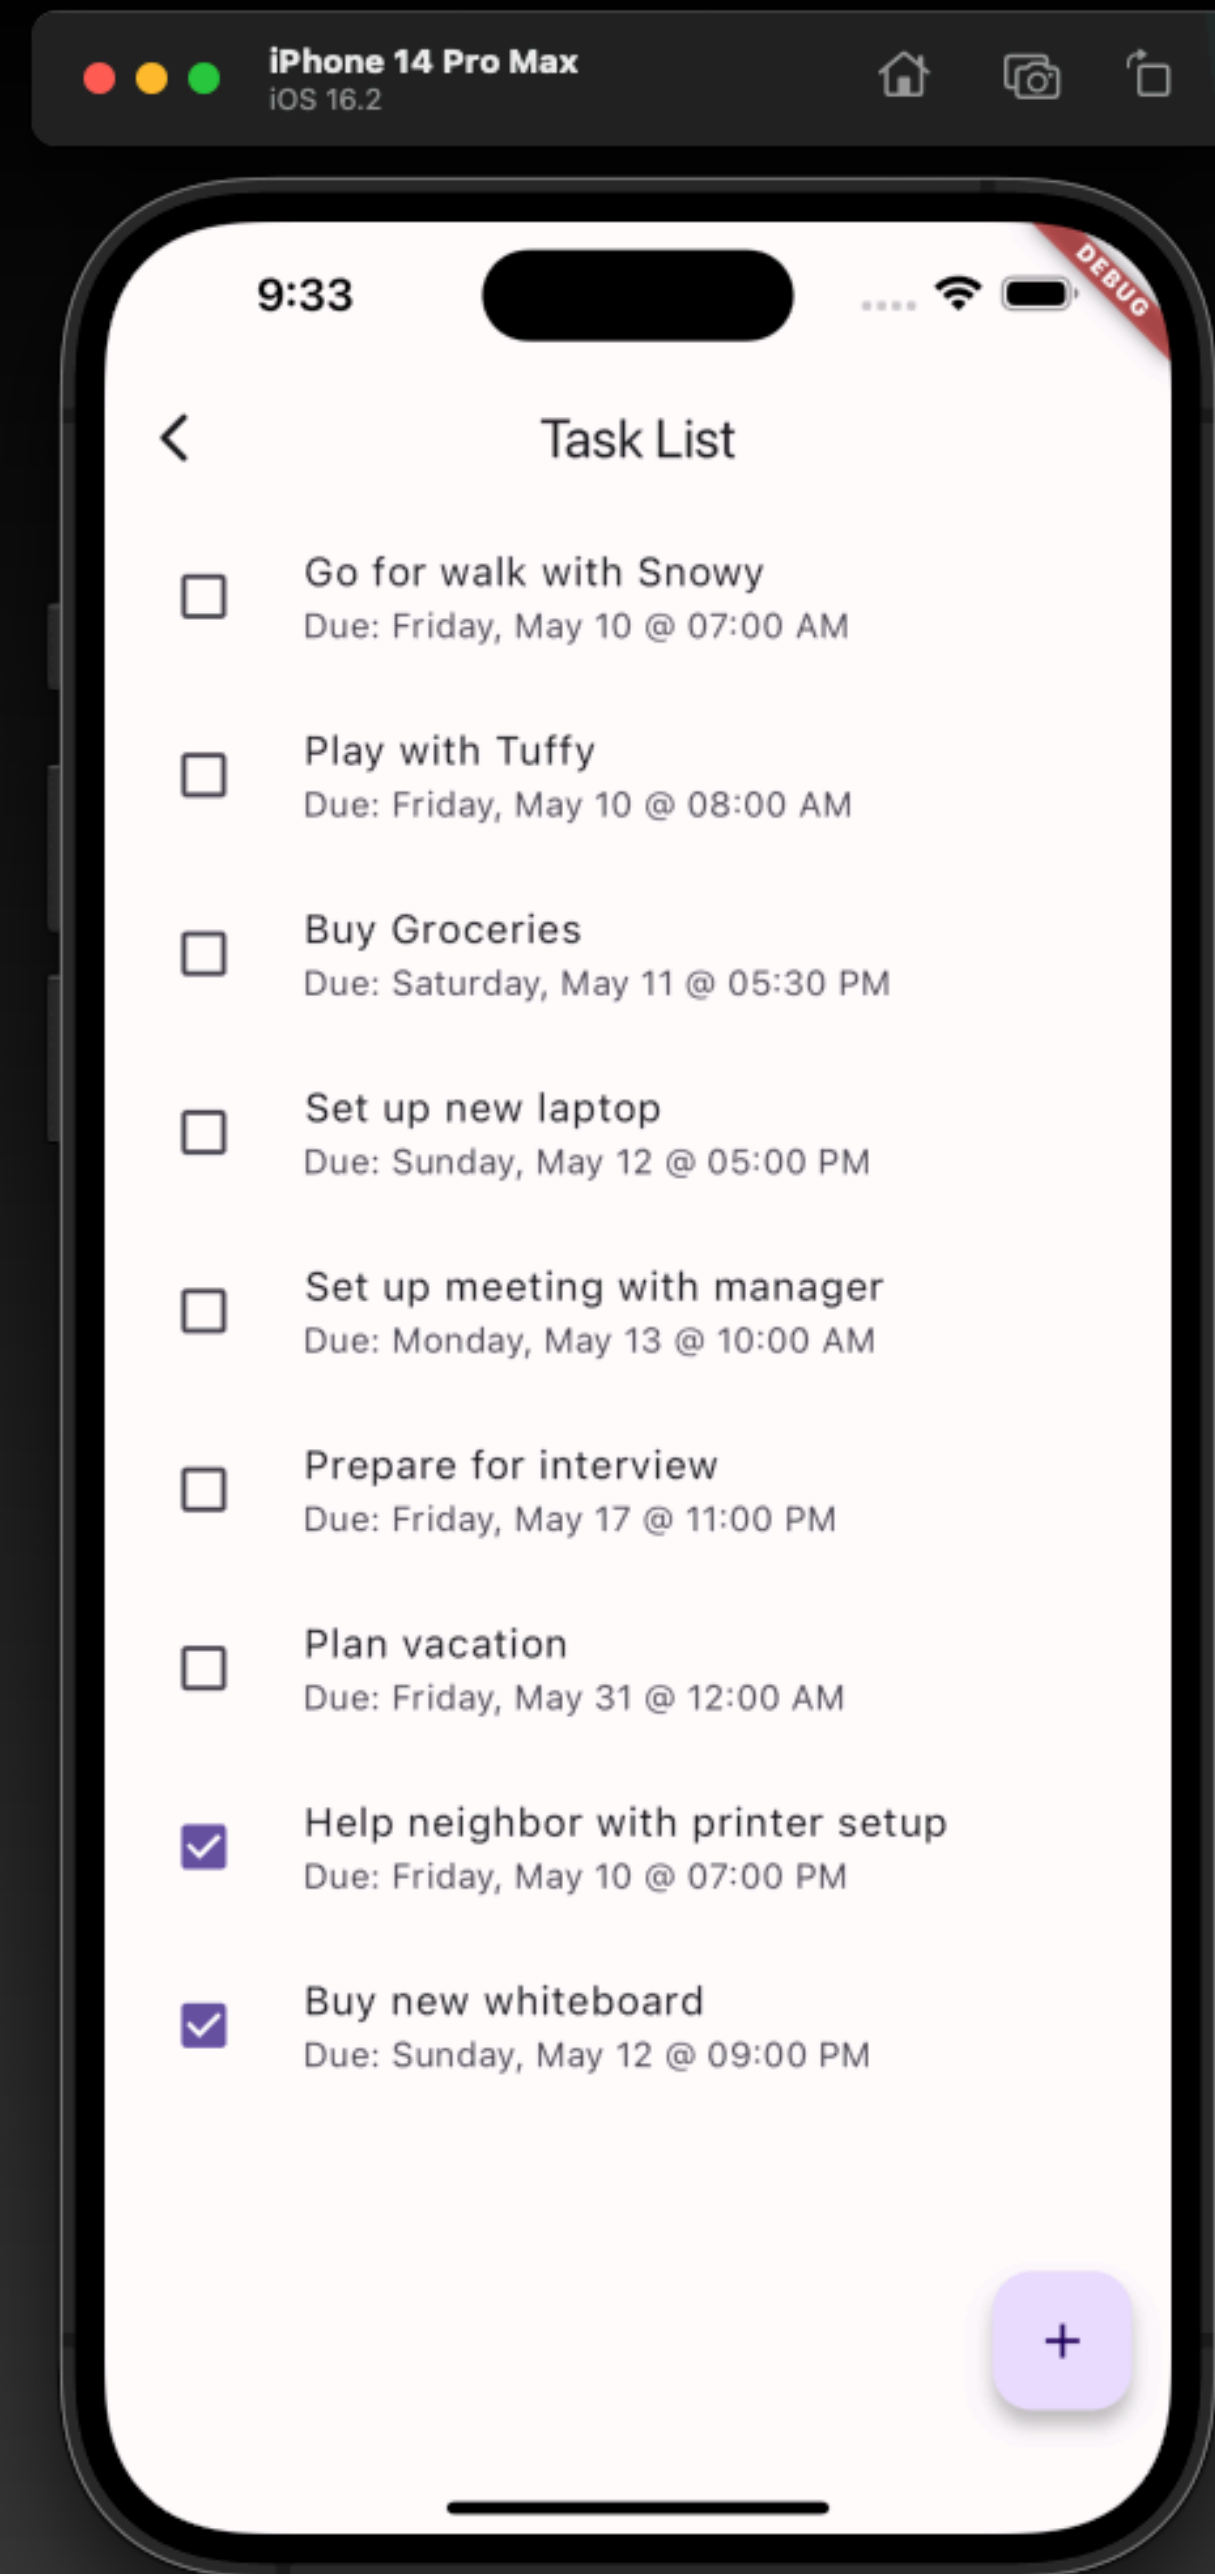

App Screenshots (iOS)

3.1 Adding new tasks is as easy as entering the title and a due date

App Screenshots (iOS)

3.2 Completed tasks move to the bottom of the screen. They can always be marked as incomplete again, and they'll move back up so everything is always sorted

App Screenshots (iOS)

3.3 Deletion of tasks is as easy as swiping them left, and confirming the action
